#### DEMOCRATIC SENATORS

Issue an Appeal to the People of Ohio Defending Their Course.

Course to be Pursued by the Demo-

CINCINNATI, May 17.-The Despocration

Cincinnati, May 17.—The Democratic members of the Ohio Senate held a caucus at the Arrington House, in Covington, tonight, and have issued the following address to the people of Ohio:

To the People of Ohio:

To the People of Ohio:

We recognize that it is due to the people of Ohio to briefly recite the causes which impelled us, as their representatives, to leave the Senate of our State without a quorum.

On the 24th day of April there were offered for adoption in the Senate of Ohio two reports from the sub-Committee on Privileges and Elections, which were made a matter of special order for May 5; one recommended the seating of the contesting, the other the contested delegation from Hamilton County. It was known to us that the presiding officer of the Senate had determined, upon a prearranged demand for the previous question, in violation of the constitution and rules of the Senate, to call the roll of the Senate on the question of the report seating the contest-ants, omitting the names of the contestes and eclare the report adopted, and administer to the contestors, who were to be in attendance, the oath of office.

This action was to be entered upon the journal, and, upon the theory that the journal, and, upon the theory that the journal, and, upon the theory that the journal entry was conclusive, would have been made valid by our presence. Our only remedy against this revolutionary proceeding was to leave the Senate without a quorum. The Senate consists of thirty-seven members. Our constitution provides that a less number may adjourn from day to day and compel the attendance of absent members. On the 8th day of May, there being less than a quorum present, a call of the Senate was made for the purpose of bringing in absent members, and the Senate on that adjourned. On the 7th day of May warrants for the arrest of absent members were, in pursuance of said call, placed in the hands of the Senate made for the Cenate who returned the writs on May 12 indorse "Not found."

In the meantime, on May 8, in violation o.

warrants for the arrost of absent members were, in pursuance of said call, placed in the hands of the Sergeant-at-Arms of the Senate who returned the writs on May 12 indorse "Not found."

In the meantime, on May 8, in violation o. Article 2, Section 6 of the Constitution of our state; of Rule 17 of the Senate, which provides "that when least than a quorum vote on any question pending in the Senate the question shall be declared lost, and no question affecting the right of a member to his seat be declared carried when a quorum is present, unless a majority of all the Senators on the role shall vote therefor: also, in violation of Rule 23 of the Senate, which provides that "when the right of two or more persons to a seat in the Senate is questioned by contest or otherwise, no joinder of such contest or otherwise, no joinder of any person or persons to a seat in the Senate contest or otherwise or persons to a seat in the Senate contest or otherwise or persons to a seat in the Senate concern the resolution after of the Senate concern the resolution of the Senate concern the provision of the Senate of the Senate (as section 4, of the Federal Constitution, which gurantees to every State in the Union a republican form of government, with seventeen members of the Senate declared said resolution seating the such constitution and the fact that less than a quorum were present when the vote was taken on the provision of the Constitution seating the protest to

netherate judgment, and states the facts in the case in an honest, straightforward manner.

"When the case goes to the Supreme Court, as it will in a short time, either from Cincinnati here or from Columbus, we have a strong and, we believe, unanswerable cause to present. The point we shall take is a new and original one. Under the Constitution of the State and the rules of the Senate, that body in the absence of a majority has but two offices to perform. One is to adjourn from day to day and the other is to issue warrants to compel the attendance of the absent members. This is the only power a migority Senate has. Now the Republicans claim that they have made a journal, and that that journal does not consain the record of the absence of a majority of the Senate, and for that reason the Court must conclude that a majority was present. We shall contend that the minority Senate had no more power to make, read and approve a journal than it had to transact any other business: that the journal itself is illegal, and therefore can not be taken as evidence in court. Thus we will go beyond and beneath every other argument and strike the center of the whole matter from the very bottom."

#### WEBER'S YARN.

Twenty Bombs Prepared for Use at a Chicago Anarchist's Meeting, But Guly One Thrown.

CLEVELAND, May 18.—A sensational tale was spun by William Weber to-day: Weber formerly lived here, but is now a resident of Chicago. He is an Anarchist, and is here to collect funds for the relief of wounded rioters in Chicago. Said he: "After the trouble at McCormick's works on Monday afternoon, a special meeting of our club was called. Spies called the meeting to order, and a committee con-isting of Parsons and two others, was appointed to draw up a manifesto.
This was the one headed, 'Revenge Workingmen to arms!' The advisability of using dynamite if the police inter-fered with any other meetings was dis-cussed, and it was decided that twenty bombs should be prepared for the next Tuesday. Five hundred ballots were dis-tributed, twenty of which contained a skull and cross-bones, I know that the twenty men received their bombs. To was the signal for the throwing of the bombs. The meeting was almost through, Tuesday night, when the police ordered the Anarchists to disperse, and it is presumed that the other nineteen men had started for home or were injured by the discharge of the police revolvers, which immediately followed the throwing of the

# THE FISHERY TROUBLES.

Indignation of Yankse Skippers Over the Action of the Canadian Authorities,

Believing That the Government Will Not Arm Their Vessels and Crows for Resistance.

PORTLAND, Mr., May 19.—Ever since the PORVLAND, Ms., Msy 19.—Ever since the seisure for alleged violation of the treaty of 1818 of the Gloucester schooner David J. Adams, commanded by Captain Kinney, at Digby, about ten days ago, the excitement here among the owners and masters of fishing crafts and those interested in the trade has been growing. It has reached a fever heat since the seisure of the Portland schooner Ella M. Doughty, owned and commanded by Captain W. A. Doughty, a hardy Cape Ann skipper, who has the entire savings of years of hard work invested in his vessel. The talk all day has been warlike, and the vigorous anathemas of the Doughty and the vigorous anathemas of the Doughty fishermen have been hurled at the Governfishermen have been hurled at the Govern-ment in general, and Secretary Bayard in particular, for the inaction so far mani-fested. At a private meeting of those most vitally interested in the fishing business here yesterday afternoon it was resolved that Portland fishermen be armed and that resolutions to that effect be adopted in a public meeting. O. B. Whitten, the largest owner of fishing craft in Portland, said this morning: "We shall stand for our rights, and if the Government will not pro-tect us then we will protect ourselves. Had Captain Doughty been armed, had his twelve men been provided with weapons, the capture of the Ella M. Doughty would never have been made.
When Captain Doughty goes to
sea again he will carry cannon and
small arms, and not the Ella M. Doughty, of whatever vessel he may command, alone, but all other fishing vessels that may go out of this port will be armed. This will be no mere display. We have rights and as I said, if the Government of the United States is too weak or nerveless to protect us, then we will protect ourselves. The vessels will be armed, and the captains will have direct orders to resist all attempts that may be made to seize them. We shall have something more than adopted resolu-tions; we shall act. Had I been in the place of Captain Doughty with twelve men at my back, that one officer would never have taken my vessel. I would have said to him: 'Get off, or I will lash you up and take you with me!' The Government is doing nothing for us. We must save ourselves and we shall do it. Captain Warren A. Doughty came of good fighting stock, and has more of the bull-dog to him than any man I ever met. Years ago his grandfather, old Captain Wm. Doughty, and his father, Issac Doughty, were in the schooner Argus that was seized and carried into Englishtown on the same charge as that made against Captain Doughty. Old Captain William fought his case from court to court, and thirteen years afterward received the pay for his schooner, and also for damages. Within the next twenty-four bours orders for cannon and small arms sufficient to supply every fish-

amall arms sufficient to supply every fishing vessel going from this port will be given out." A meeting of the Fish Exchange was held at Exchange Hall at half-past two o'clock. Representatives of the leading fifty-five firms were present. After a long discussion, participated in by nearly forty gentlemen, wigorous resolutions were adopted, in which it was determined to arm fishing vessels for resistance. It was also voted vessels for resistance. It was also voted to request the mayor to call a special meetto request the mayor to call a special meeting of the city council to act with the

Hunting for Mormons.

GENEVA, May 21.—The war upon Mormon missionaries in Switzerland is being prosecuted vigorously. Many of them have fied, and others who have not heeded the warnings of the exasperated friends of their victims have been beaten and driven across victims have been beaten and driven across
the frontier. The police are taking them into
custody upon the slightest protext and in almost every case magistrates find some excuse for committing them to jail. Every Mormon agent in Argovia and Zurich, including a number who had taken refuge in
these places from the wrath of the inhabitants of other towns, has been arrested,
and it is believed that within a week it
will be impossible to find a single Mormon evangelist at large in all Switzerland.
